Take the healthy, active lifestyle challenge!

Bicycle Rentals

Bike riding is an amazing physical activity that enables you to enjoy the outdoors. However, it's difficult to enjoy it if you don't own a bicycle. Through our bicycle rental program, the public can rent a bike at Ellen Linson Swimming Pool in College Park during the summer season; the site is conveniently located along the beautiful Northeast Branch Trail of the Anacostia Tributary Trail System.

On another note, if you are a bike owner, head out for miles of pedaling on one of our many trails or paved paths. Visit www.pg parks.com > [Your Parks](#) > [Trails](#), for a detailed description of our trails, or to download trail maps.

Come Out and Play

Getting outside and active is what this season is all about! During the summer, families can take advantage of FREE, entertaining activities and games at select M-NCPPC neighborhood parks throughout the county. "More green, less screen" is the idea! So, turn off those screens and make sure to join your neighbors for some fun physical activity! Visit [Xtreme Teens](#) > [Hot Happinings](#) > [Programs](#) > [Come Out and Play](#) for a list of summer dates and locations.

Community Garden Plots

Did you know that you can rent a garden plot in Prince George's County and grow your own fresh produce and flowers? Gardening is a great way to attain physical exercise and consume a wide range of fruits and vegetables, which aid in the prevention of chronic disease.

Not to mention that it'll also give you a bigger appreciation of nature, beautify the community and make you feel more connected with your neighbors. To learn more about permitting a garden plot, visit www.pg parks.com > [Rentals & Permits](#) > [Community Garden Plots](#).

Summer is finally here and the Department of Parks and Recreation challenges you and your family to stay active and healthy all season long! With schools out, being active and healthy is something the whole family can do together. Avoid those lazy family days and encourage yourselves to participate in at least one fun physical or healthy activity each day. Having difficulty coming up with ideas as a family? We've got you covered! We offer fun programs and activities in the community for people of all ages that will keep you and your family active and engaged in a healthy lifestyle—not only during the summertime, but all year long!

With the rise of chronic disease and obesity rates in Prince George's County, we've made it our mission to improve the quality of life for all residents by offering a diverse range of health and wellness-related programs and services. Creating healthy communities is what we aim to achieve and by participating in these programs, we hope families will greatly benefit from them.

So, how about it? Want to be part of this challenge of adopting an enriching and healthy lifestyle? Here are some of our new, innovative programs that will get you and your family on the right path. ■

Dine & Learn

You can never know too much about health and wellness. Learn all you can about living a healthy lifestyle through this program, which provides nutrition lectures, exercise activities and cooking demonstrations for people of all ages. In conjunction with the Prince George's County Health Department and Suburban Hospital, the Department of Parks and Recreation offers this monthly program that also includes individual health screenings. If you live in the southern area of the county, consider attending one--or all--of the following summer sessions at Suitland Community Center.

Dine & Learn 2013 Summer Schedule:

June 26 – Farm to Table Freshness

July 24 – The Carbohydrate Conundrum:
Simply or Complex

August 28 – Is My Food Safe?
Home Food Safety

Please call 301-736-3518 for more information.

Passport to Family Wellness

We've joined forces with Wegmans Food Market's Passport to Family Wellness initiative to promote physical activity on trails throughout Prince George's County. Individuals are encouraged to walk, bike or hike the trails and then record their visits by making a rubbing of the designated path marker on a handy passport booklet, which features 15 of our trails. Complete all of the trails and enter into a drawing for a family summer cookout--Wegmans will provide the food, and we'll provide the shelter! A FREE copy of the passport booklet is available for pickup at the Wegmans Woodmore branch store, or may be downloaded on our website. Visit www.pgpc.com for more details.

Water Fitness

We all know that workouts including spinning and Tabata are awesome cardiovascular exercises, but what if they're done in the water? If you are really up for a challenging workout, sign up for one of our new, innovative water fitness classes at Theresa Banks Memorial Aquatics Center. They're designed to give you a high calorie-incinerating workout, elevate your fitness level and get you in shape! Our new classes consist of **Aqua Tabata**, a high intensity interval training class in deep water for ages 15 & up; **Hydro Spinning**, a cross between a water aerobics and a group cycling class using stationary bikes in the water for ages 15 & up; and **Teen Aqua Boot Camp**, a water fitness course designed for overweight teenagers (ages 13-17) that covers healthy, nutritious eating habits, as well as water-based workouts.

Visit www.pgpc.com > SMARTlink for more details about each course.

Arts on a Roll

Bringing art and creativity to people of all ages through mobile outreach!

M-NCPPC is proud to present its NEW mobile arts program, Arts on a Roll! If you have creative art skills or an interest in art, you'll enjoy participating in the fun activities that this program offers including our popular collage and t-shirt workshop! This workshop consists of using inspiring images – anywhere from the internet, magazines and newspapers to color paper, sketches and found objects – to create unique and dynamic compositions. Participants can then scan, print and iron-transfer those compositions onto t-shirts to create wearable works of art!

Be on the lookout for M-NCPPC's Mobile Art Van this summer!

Arts on a Roll will be available at many of the department's events in the county including community festivals and

teen events, and will also be partnering with other imaginative and culturally connected programs around the region. The purpose is to encourage art creativity in the community and provide art opportunities to areas where art education may be limited. Call 301-446-3241 for more information.

Although limited documentation is available about daily operations, enslaved Africans and indentured servants provided the labor as field hands and skilled craftsmen at the plantation and the Patuxent Ironworks. Montpelier hosted many famous individuals, including George and Martha Washington and Abigail Adams. Montpelier is fully restored and furnished as it might have been in 1830. The grounds boast an original 18th c. summerhouse, one of only two surviving in the U.S. on its original site. KIDS' DAY OUT: Max Bent, Beatboxer

Max Bent started beatboxing at the age of eight, when he began imitating what he heard on the radio. His skills developed independently until, to his surprise, he discovered that beatboxing was already an international vocal art form with roots in Hip Hop culture. Since then, Max's love for the beat has taken him on many exciting journeys, including

performing with musicians and beatboxers across the country and creating tutorials for his website, Beatbox. Tv. Working on projects such as the Verizon FIOS Beatbox Mixer has given Max an understanding of the science behind beatboxing, and his experience as a science teacher in Maryland has helped him make a smooth transition into his work as a teaching artist.

Water Work

Water Work is about rivers, creeks and waterways in the Washington, D.C. area. The works in this exhibition was begun by the three Plein Aire painters, Lynn Mehta, Barbara Stepura and Sally V. Parker, and were conceived around the idea that water, with its beauty, commercial benefits and environmental impact, touches all of us. As was depicted by the first Impressionists, the movement of light on and near water provides these artists with the inspiration for these works. The action of refracted and reflected sunlight creates facets of gemlike quality and energizes even the deepest shadows.

Nostalgia Structures

Artists Si Jae Byun, Hedieh Javanshir Ilchi, Megan Mueller and Rachel Schmidt have strong themes of whimsy, structure, play and nostalgia that run through their artwork. These ideas manifest into forms of physical and imagined structures loosely based on habitable spaces that reference a memory, a nostalgia for something forgotten or unknown. Each artist has their own playful approach, and each comes to their creative process armed with a diverse range of media and materials. In *Nostalgia Structures*, Byun, Ilchi, Mueller and Schmidt will present site specific installations, sculptures, and 2-dimensional works, many of which are being created for this exhibition. Each artist will address the concept of nostalgia, often with a heavy lean toward the autobiographical. Through this work, *Nostalgia Structures* becomes a dialogue between artists from Iran, South Korean and the U.S., speaking to fundamental concepts about how we see our life scapes and how we choose to live within them.

Resident Registration and Fees

The Maryland-National Capital Park and Planning Commission policy gives priority to Prince George's County residents during program and class enrollment; it also increases registration fees by approximately 20 percent for non-residents, or those living outside Prince George's and Montgomery Counties. This procedure ensures that the citizens who fund these programs through their tax dollars have the first option to enroll. After the priority registration period, registrations are accepted from residents of all jurisdictions. The fee schedule applies to all Commission programs and facilities in Prince George's County, with a few exceptions such as performance tickets and historic site admission fees. *NOTE: Full payment is due at registration unless a class or program has a scheduled payment structure i.e. Kids' Care, Trips & Excursions. Need help? E-mail the Park and Planning Help Desk at help4smartlink@pgparks.com

Fee Structure

Please note that fees are listed in groups, allowing a reduced fee for county residents. A guide to this fee structure is shown below.

Refund Policy

The registrant is entitled to a 100% refund, or a credit to his/her account, in the event that The Maryland-National Capital Park and Planning Commission cancels a course. The registrant may withdraw from a course at any time prior to course end, and will be entitled to receive a pro-rated credit to his/her account, based on the number of classes remaining at the time the withdrawal is requested. All withdrawals must be processed by the facility offering the program. If the registrant chooses to request a refund of the pro-rated amount, a 20% Refund Administration Fee will be imposed, reducing the amount to be refunded. No requests for refunds will be accepted after a course is completed. No cash refunds will be allowed. Refunds for credit card purchases will be issued as a credit to the credit card account, subject to the 20% Refund Administration Fee. Check refunds may take 3-4 weeks to process. No refund or credit will be issued for classes missed by the participant. Some activities have different refund/withdrawal policies that supersede this standard policy, as identified in the course description or details.

Plan Prince George's 2035 is the project name for the update of the 2002 Prince George's County Approved General Plan. A general plan is a document used by a community to establish broad policies and strategies on important land use, economic development, infrastructure, transportation, environmental, and other quality of life priorities. It provides a "blueprint" to help the county achieve its long-term vision by guiding future growth, development, and public investments. Approval of the plan update follows a multi-step legislative process and is scheduled to be completed in early 2014.
