perpendicular to the streams, by using existing road crossings to the extent possible and by minimizing the creation of ponds within the regulated areas.

"Woodland cleared within the Patuxent River Primary Management Area Preservation Area shall be mitigated on-site at a ratio of 1:1."

O. No woodland conservation shall be provided on any residential lots.

"Properties within this subdivision have been identified as possibly having noise levels that exceed 70 dBA Ldn due to military aircraft overflights. This level of noise is above the Maryland designated acceptable noise level for residential uses."

3. Before approval of the first Specific Design Plan, staff and Planning Board shall review and evaluate the buffers between this development project and the adjoining properties, to determine appropriate buffering between the subject property and existing development on adjacent properties.

SECTION 2. The Zoning Map for the Maryland-Washington Regional District in Prince George's County, Maryland, is hereby amended by rezoning the property which is the subject of Application No. A-9965-C from the R-A Zone to the R-M Zone.

SECTION 3. BE IT FURTHER ENACTED that this Ordinance shall become effective on the date of its enactment, and the rezoning approved herein shall become effective when the applicant accepts in writing the condition in Section 1.
