INVENTORY OF HISTORIC CEMETERIES

Historic burial grounds and cemeteries are valuable elements of the county's cultural heritage because they provide biographical and genealogical information, display the folk art of tombstone carving, and preserve natural features of the landscape including old trees and mature plantings. All cemeteries are protected by state law, but it is essential that the individual jurisdictions be informed of the locations of historic cemeteries so that developers can be alerted to their existence, and the cemeteries themselves can be preserved. This appendix lists all of the known cemeteries in Prince George's County, 232 at this writing. Of those, 225 were listed in the 1992 *Historic Sites and Districts Plan*. One hundred seventeen cemeteries have been precisely located through Historic Preservation staff survey work, or are recorded in *Stones and Bones, Cemetery Records of Prince George's County, Maryland*, published in 1984 (with an addendum in 2000) by the Prince George's County Genealogical Society.

Ivy Hill Cemetery (Laurel 3) was originally listed in the Inventory in the 1981 *Historic Sites and Districts Plan*. It is not included in the current plan because the City of Laurel is outside the Regional District, and not subject to the county historic preservation ordinance. Sites without a number have not been recorded on a Maryland Inventory of Historic Properties (MIHP) form.

The cemeteries in the list that follows are arranged in Planning Area order. Cemeteries that are located on the grounds of properties in the Inventory of Historic Resources are shown using the following symbols.

Legend:

HS	Historic Site
HR	Historic Resource
HS	<i>Historic Site (proposed)</i>
HR	<i>Historic Resource (proposed)</i>
NR	National Register
NHL	National Historic Landmark

Property titles in **bold** type indicate county-designated historic sites; property titles in **bold italics** indicate proposed historic sites. Property titles in regular type indicate historic resources; property titles in *italics* indicate proposed historic resources. Individual listings in the National Register of Historic Places are identified by NR. National Historic Landmarks are identified by NHL.
